Keywords modes, wreless gaming mouse pertaing gable, computer mouse, pp gaming mouse, gaining mouse,	Text Layer	HyperX Pulsefire Dart is an ultra-precise wireless mouse with low latency and near-wired responsiveness. With a miniscule 1ms response rate, it'l make you wonder why you waited so long to cut the cord. The Pulsefire Dart can go up to 50 hours on a single charge* and supports Qi wireless charging** for maximum convenience. With a Pixart 3389 sensor and a split-button design featuring reliable Omron switches, you'll have all the accuracy you need to crush the competition. It's ergonomically-shaped and features padded leatherette side grips designed to reduce the fatigue of those long nights of gaming. Use the new and improved HyperX NGENUITY software to customize the RGB lighting, create macros, and adjust DPI settings. Lose the wires and gain precision, style, and comfort with the HyperX Pulsefire Dart.
