26,000 DPI MARKSMAN optical sensor and optical switches

Up to 8,000Hz polling with CORSAIR AXON Hyper-Processing Technology

Bullets (Short)

1. Durable and iconic aluminum frame
2. CORSAIR MARKSMAN 26,000 DPI optical sensor
3. Register your clicks even faster with CORSAIR QUICKSTRIKE buttons and optical switches
4. CORSAIR AXON Hyper-Processing Technology with up to 8,000Hz polling rate
5. Ultra-low lift-off distance and tilt gesture actions with six-axis gyro
6. Tunable weight system from 97g-115g
7. Drag-reducing paracord cable
8. Eight programmable buttons
9. Replaceable 100% PTFE mouse feet with ultra-low friction for a smooth glide
10. Two-zone RGB lighting
11. Powered by CORSAIR iCUE software
12. Onboard profile storage

Bullets (Style One)

1. The M65 RGB ULTRA's iconic anodized aluminum frame makes for lasting durability with a familiar shape.
2. A CORSAIR MARKSMAN optical sensor, with an astonishing native 26,000 DPI and 650 inches per seconds (IPS) tracking at up to 50G acceleration, precisely captures your every mouse movement, customizable in single DPI steps.
3. Optical left and right-click switches deliver hyper-fast and precise responses, while standing up to years of rigorous use.
4. CORSAIR AXON hyper-processing technology registers and transmits your movements and clicks up to 8x faster than conventional gaming mice thanks to native 8,000Hz hyper-polling.
5. Six-axis gyro enables ultra-low lift-off distance for more accurate tracking when repositioning your mouse, and is programmable with tilt gestures so you can map in-game commands like reload or weapon switch to simple mouse movements.
6. Adjust the M65 RGB ULTRA's center of gravity and weight from 97g-115g using up to six included weights.
7. CORSAIR QUICKSTRIKE buttons use a spring-loaded design, delivering zero gap between the primary mouse buttons and their switches, so your clicks, shots, and spells are faster than ever.
8. A lightweight paracord cable reduces drag, enabling faster, tighter, and more precise mouse movements.
9. Eight mouse buttons are fully programmable with button remaps, custom macros, and more, so you can create your ideal gaming setup.
10. Mouse feet built from ultra-low friction PTFE pads offer the smoothest glide and quickest movements, easily replaceable if they get worn down on your journey to the top.
11. Customize your dynamic RGB backlighting across two zones to add a personal touch to your mouse's aesthetics.
12. Powerful CORSAIR iCUE software enables vivid dynamic RGB lighting control, macro programming, and full-system lighting synchronization with all compatible iCUE devices throughout your setup.

13. Take your lighting profiles, macros, and DPI settings on the go with convenient onboard storage.

Bullets (Style Two)

1. **Iconic Aluminum Frame:** The M65 RGB ULTRA's anodized aluminum frame makes for lasting durability with a familiar shape.
2. **CORSAIR MARKSMAN 26,000 DPI Optical Sensor:** With an astonishing native 26,000 DPI and 650 inches per seconds (IPS) tracking at up to 50G acceleration, the MARKSMAN sensor captures your every mouse movement, customizable in single DPI steps.
3. **Optical Switches:** Left and right-click switches deliver hyper-fast and precise responses, while standing up to years of rigorous use.
4. **CORSAIR AXON Hyper-Processing Technology:** Registers and transmits your movements and clicks up to 8x faster than conventional gaming mice thanks to a native 8,000Hz polling rate.
5. **Sensor Fusion Control:** Combines a six-axis gyro and accelerometer to enable ultra-low lift-off distance for more accurate tracking when repositioning your mouse, and is programmable with tilt gestures so you can map in-game commands like reload or weapon switch to simple mouse movements.
6. **Tunable Weight System:** Adjust the M65 RGB ULTRA's center of gravity and weight from 97g-115g using up to six included weights.
7. **CORSAIR QUICKSTRIKE Buttons:** A spring-loaded design delivers zero gap between the primary mouse buttons and their switches, so your clicks, shots, and spells are faster than ever.
8. **Lightweight Paracord Cable:** Reduces drag, enabling faster, tighter, and more precise mouse movements.
9. **Eight Programmable Buttons:** Create your ideal gaming setup with button remaps, custom macros, and more.
10. **100% PTFE Glide Pads:** Mouse feet built from ultra-low friction PTFE pads offer the smoothest glide and quickest movements, easily replaceable if they get worn down on your journey to the top.
11. **Dynamic RGB Backlighting:** Customize lighting across two zones to add a personal touch to your mouse's aesthetics.
12. **Unite Your Setup:** Powerful CORSAIR iCUE software enables vivid dynamic RGB lighting control, macro programming, and full-system lighting synchronization with all compatible iCUE devices throughout your setup.
13. **Onboard Profile Storage:** Take your lighting profiles, macros, and DPI settings on the go.

25-Word Sell Copy

Make all your clicks count with the CORSAIR M65 RGB ULTRA Tunable Gaming Mouse, boasting a durable aluminum frame and pinpoint accuracy powered by a 26,000 DPI MARKSMAN optical sensor.

50-Word Sell Copy

Make all your clicks count with the CORSAIR M65 RGB ULTRA Tunable Gaming Mouse, boasting a durable aluminum frame and pinpoint accuracy powered by a 26,000 DPI MARKSMAN optical sensor and optical switches. A six-axis gyro enables ultra-low liftoff

distance and convenient tilt gestures for in-game actions, while CORSAIR AXON Hyper-Processing Technology transmits those actions up to 8x faster than other gaming mice.

100-Word Sell Copy

The CORSAIR M65 RGB ULTRA Tunable Gaming Mouse boasts a durable aluminum frame and pinpoint accuracy powered by a 26,000 DPI MARKSMAN optical sensor and optical switches. Sensor fusion technology enables ultra-low liftoff distance and convenient tilt gestures for in-game actions, while CORSAIR AXON Hyper-Processing Technology transmits those actions up to 8x faster than other gaming mice. With customizable weight between 97g and 115g, a lightweight paracord cable, and CORSAIR QUICKSTRIKE buttons, all your movements and actions register with the utmost speed. Take control with iCUE software to program the M65 RGB ULTRA's eight buttons, customize its dynamic RGB backlighting, and save your profiles to onboard storage to take on the go. Pick up the M65 RGB ULTRA to make all your clicks count.
