| Compatibility List        | Recommended for Intel 300 Series, 400 Series, AMD X570, AMD B550.                                                                                                                                                                                   |

## Overview

CORSAIR DOMINATOR® PLATINUM RGB DDR4 Memory redefines premium DDR4 memory, with timeless iconic design, superior craftsmanship and aluminum construction that's built to last. Powered by tightly-screened high-frequency memory chips, DOMINATOR PLATINUM RGB ensures high frequency performance with generous room for overclocking thanks to a custom PCB cooled by CORSAIR'S patented DHX cooling technology. Use CORSAIR iCUE software to customize virtually limitless lighting effects from 12 ultra-bright, individually addressable RGB LEDs, and stay informed with real-time frequency and temperature monitoring. Complete with wide compatibility with the latest motherboards, Intel® XMP 2.0 support for simple setup, and a limited lifetime warranty, this is DDR4 memory in a class of its own.

## Features and Benefits

|                                                                                                                                                                                                                                                                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> <li>•Iconic and refined DOMINATOR PLATINUM design perfectly complements the world's best PCs, for unmistakable high-end system builds.</li> </ul>                                                                                            |
| <ul style="list-style-type: none"> <li>•Hand-sorted, tightly-screened memory chips ensure high frequency performance and tight response times, with overclocking headroom to spare.</li> </ul>                                                                                  |
| <ul style="list-style-type: none"> <li>•DOMINATOR PLATINUM RGB's construction combines precision die-casting and anodization to create premium memory that's built to last.</li> </ul>                                                                                          |
| <ul style="list-style-type: none"> <li>•12 ultra-bright, individually addressable CAPELLIX RGB LEDs per module illuminate your PC with spectacular customizable lighting and low power consumption.</li> </ul>                                                                  |
| <ul style="list-style-type: none"> <li>•Patented DHX cooling system embeds the heatspreader directly into the PCB, pulling heat away from the modules and allowing DOMINATOR PLATINUM RGB to stay cool even under extreme loads.</li> </ul>                                     |
| <ul style="list-style-type: none"> <li>•A custom high-performance PCB guarantees signal quality and stability, for superior overclocking ability.</li> </ul>                                                                                                                    |
| <ul style="list-style-type: none"> <li>•Powerful CORSAIR iCUE software brings your system to life with dynamic RGB lighting control synchronized across all your iCUE compatible products, and keeps you informed with real-time temperature and frequency readings.</li> </ul> |
| <ul style="list-style-type: none"> <li>•Choose from dozens of stunning pre-set lighting profiles, or create your own with virtually limitless lighting patterns and effects in CORSAIR iCUE software.</li> </ul>                                                                |
| <ul style="list-style-type: none"> <li>•Optimized for wide compatibility with the latest Intel® and AMD DDR4 motherboards.</li> </ul>                                                                                                                                           |

- Supports Intel® XMP 2.0 for simple one-setting installation and setup.
- Limited lifetime warranty provides complete peace of mind.

### Tech Specs
